# The Great Escape
**Safety Analysis and Risk Assessment - Low Risk Activity**

**Qualifications** – A registered teacher with competence (demonstrated ability) or an adult who has a current Community Surf Life Saving Certificate. **Sessions are conducted by fully qualified teachers or TBS instructors who engage in annual staff reviews of all activities and have Certificate II in Public Safety Aquatic Rescue.**

**Minimum Supervision** - If an adult other than a registered teacher is engaged for instruction, a registered teacher should be present to take overall responsibility. **TBS staff have participated in an induction process that required them to observe at least a minimum of two lessons followed by teaching two lessons under supervision before they conduct sessions independently.**

**Minimum Equipment** - TBS staff carry First Aid Kit, a mobile phone and a whistle

<table>
<thead>
<tr>
<th>Nature of Hazards</th>
<th>Likelihood</th>
<th>Consequence</th>
<th>Risk Level</th>
<th>Controls taken by TBS staff to address hazards</th>
</tr>
</thead>
</table>
| Sunburn/Dehydration        | Unlikely   | Moderate    | Medium     | - Hats, t-shirts and sunscreen are applied before activity  
- A drink bottle is carried by each student to the activity.                                                  |
| Sharp objects in sand      | Unlikely   | Minor       | Low        | - Lesson area is scanned for harmful objects by staff  
- Council tractors comb the sand on regular basis.                                                            |
| Sand in eyes               | Unlikely   | Minor       | Low        | - Students are instructed not to flick sand while they are digging  
- Playing area is sufficiently spaced between teams.                                                           |
| Abduction                  | Rare       | Major       | Low        | - Teacher and one other student to accompany child to toilet.  
- Activity is conducted in separate area from general public when possible                                      |
| Drowning                   | Rare       | Critical    | Medium     | - Activity is set up at least 5 metres away from the water  
- Students to remain out of the water.                                                                          |

**Further Considerations**
- TBS Lesson Plan Overviews issues and signed off by all teaching staff annually
