## Olympic Teambuilding Hot Blocks Analysis and Risk Assessment – Low Risk Activity

**Qualifications** – A registered teacher or Unit Support Officer. For those staff who have not supervised an activity before, a lesson plan and verbal induction will be given by Tallebudgera Beach School Staff.

**Minimum Supervision** – Teacher or Unit Support Officer who has been instructed and read a lesson plan describing activity.

**Minimum Equipment** – TBS staff carry Mobile Phone, First Aid Kit, Accessibility to Ice

### Nature of Hazards

<table>
<thead>
<tr>
<th>Nature of Hazards</th>
<th>Likelihood</th>
<th>Consequence</th>
<th>Risk Score</th>
<th>Controls taken by TBS staff to address hazards</th>
</tr>
</thead>
</table>
| Struck by other lesson participants.  | Unlikely   | Minor       | Low        | - Space for each specific task is outlined and monitored  
- Students are instructed in correct technique of equipment usage  
- Safety concerns are highlighted during activity explanation  
- Sighted students stand in between blind folded student. Sighted students give verbal instructions to blindfolded students when moving.                                                                                           |
| Collisions with building obstacles(eg wall, pole) | Unlikely   | Minor       | Low        | - Set boundaries and identify hazards.  
- Activity completed in areas familiar to students eg. Middle of oval away from other activities and hazards.                                                                                                                                                      |
| Overheating, Dehydration               | Unlikely   | Moderate    | Med        | - A drinks break half way through tabloid.  
- Hats must be worn on oval.  
- Students encouraged to take water bottle with them to each activity.                                                                                                                                                                                   |
| Slip off blocks                        | Unlikely   | Minor       | Low        | - Students to wear shoes.  
- Students not to place blocks further than a step away from each other.                                                                                                                                                                                            |

### Further Considerations

- Department guidelines outlined in **HLS-PR-012**
